

1. Installation

han

You want to use the immich release version s.t it will always update to the newest version and keep immich up to date.

100MB File size Cloudflare Tunnel Limits

Source: [Cloudflare Tunnels](#)

If you use cloudflare tunnels for your public websites then it is limited to files of 100MB or less. This is a problem of course since lots of video files are larger than 100 MB. Hence, if you use cloudlfare tunnels the files either need to be uploaded in chuncks smaller than a 100MB or you need to remove the cloudflare tunnel and expose your public IP to the internet. The former is of course the best option which can be solved by using
