

8. Arcane Updates

Arcane update available

v2.8.1 → v2.9.0 · Released about 7 hours ago

What's new

View full release on GitHub

[!NOTE] This release adds automated S3 backups, standalone container editing, batched container-update notifications, and GitOps redeployment for stopped projects. It also expands the CLI with commands for vulnerabilities, activities, and webhooks while improving project handling, OIDC support, and API behavior.

Features

- Add automated S3 backups — 555c5dfbac478e7bbe336fff29cfe4d6277b2d6d (#3459) (@affeldt28)
- Batch container-update notifications — 0239f62b45c7b2d485285a54fc54e44b6a0721e8 (#3650) (@wyx1818)
- Add the ability to edit standalone containers — 34004657310574740542b5450405f100b585f124 (#3646) (@kmondell)
