

3D HA Building Modeling

It is amazing that you can 3D model your whole home! In that way you can place all your smart devices inside this 3D model and even make it interactive. In that way you always have an overview of which lights are on. Which people are home, if the car is home etcetera.

However, this still takes some effort today: <https://www.youtube.com/watch?v=ttshqL9MtQg>

So for now I leave it as is since I have other things to do ;)
