3. TrueNas System Updates Notifications

Just as with Proxmox we would also like to receive a notification when a new update for our TrueNas system comes available. Luckily TrueNas allows this.

1. Go to System > Alert Settings > Category
2. Select the category **System**
3. Then scroll all the way down until you find **Update Available.** Then make sure it is set to Notice, s.t you will receive a notification when a TrueNas update is available.
